ABOUT ME

My name is Caden Roberts. I am currently a 19-year-old Waiter and Student at West Valley College. I am earning an Associate in Arts Degree for Liberal Arts: Sci and Math, as well as an Associate in Science Degree for Transfer – Mathematics. I am transferring in the fall to UC Santa Cruz to earn my BS in Computer Engineering. Through my coursework, I have gained proficiency in programming languages such as C++, Java, and Python, as well as familiarity with various software development tools and techniques. I have also completed several projects that have given me experience working in a team and managing project timelines. While I am still early in my career, I am excited to continue learning and growing as a software engineer.
